

SAMIDHA DHAWALE

AI ML Enthusiast and Frontend Developer

☎ +91 9112210105 ✉ samidhadd21@gmail.com 🔗 linkedin.com/in/samidha 🐙 github.com/samidha

Profile Summary

Computer Engineering student with hands-on experience in frontend development and applied AI systems. Proven ability to build and deploy user-facing applications integrating machine learning, computer vision, and LLM-driven workflows.

Technical Skills

Programming and scripting languages: Python, JavaScript, SQL, Java, C++

Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap

Backend: FastAPI, Django, REST APIs, Node.js

Databases: MySQL, PostgreSQL, MongoDB

AI/ML: NumPy, Pandas, PyTorch, Transformers, OpenCV, Librosa, Matplotlib, Hugging Face APIs

Deployment: FastAPI, Streamlit,

Tools: VS Code, Git, GitHub, Figma

Projects

AI Game Customization Platform (GameHub) | *HTML, CSS, JavaScript, Bootstrap* | GitHub | Live **2025**

- Engineered a browser-based platform featuring **6 playable game modules** with visual customization.
- Integrated **Segmind** generative APIs to dynamically render sprites and backgrounds from user prompts.
- Built configurable pipelines for difficulty tuning, character updates, and environment switching.
- Recognized among the **Top 10 teams** at the **KGen** national hackathon.

Official E-Cell Website – AISSMS COE | *React.js, Tailwind CSS* | GitHub | Live **2025**

- Collaborated in a 2-member team to build the organization's official digital presence.
- Implemented navigation architecture, header systems, and chronological event timelines.
- Designed **reusable React components** with **Tailwind-based** responsive styling.

Moodify AI – Generative Music System | *PyTorch, Transformers, FastAPI, Streamlit* | GitHub **2025**

- Developed a transformer-driven pipeline for **controllable music synthesis** conditioned on **mood** and **genre**.
- Exposed model inference via **FastAPI** endpoints supporting **generation**, **remix**, and **analysis** workflows.
- Engineered **audio preprocessing** and **feature extraction** using Librosa and NumPy.
- Delivered a **Streamlit-based** interactive client for real-time experimentation and visualization.

Experience

AI ML Intern **Dec 2025 – Jan 2026**

Edunet Foundation (in collaboration with AICTE & IBM SkillsBuild)

Python, Transformers, FastAPI, Streamlit

- Worked on developing agentic AI applications using API-driven integration of transformer-based models.
- Built a functional prototype, *Moodify AI*, enabling music generation, remixing, and audio analysis.

Achievements

Co-Head – Documentation Team, Computer Engineering Department **2025**

- Led departmental publications and standardized cross-team communication workflows.

Co-Head – Innovate Sphere Hackathon (Engineering Today Technical Event - AISSMS COE) **2025**

- Successfully managed execution, logistics, and participant coordination for a multi-team technical hackathon.

Education

Bachelor of Engineering in Computer Science **2023 – 2027 (Expected)**

AISSMS College of Engineering, Pune

CGPA: 8.98 / 10
